**IEEE International Conference on Multimedia & Expo (ICME)** is a major annual international conference organized with the objective of bringing together researchers, developers, and practitioners from academia and industry working in all areas in multimedia. ICME serves as a forum for the dissemination of state-of-the-art research, development, and implementations of multimedia systems, technologies and applications. ICME is co-sponsored by four IEEE societies (the Computer Society, the Signal Processing Society, the Circuits and Systems Society, and the IEEE Communications Society).

Authors should submit a four-page manuscript in double-column format including authors' names, affiliations, and a short abstract. Only electronic submission will be accepted. Visit the ICME 2003 website, [www.icme2003.com](http://www.icme2003.com), to submit papers. Topics covered include but are not limited to the following:

- Audio, image, video processing
- Virtual reality and 3-D imaging
- Signal processing for media integration
- Integration of media, art, and multimedia technology
- Multimedia Communications and networking
- Multimedia security and content Protection
- Multimedia human-machine interface and interaction
- Multimedia database
- Location aware multimedia systems
- Multimedia computing systems and appliances
- Hardware and software for multimedia systems
- Multimedia standards and related issues
- Multimedia applications
